

## testo Saveris Cloud

### Automated measurement monitoring. Thanks to cloud connection.

With the online data loggers connected to the testo Saveris Cloud, your indoor climate monitoring takes place effortlessly in the background. You don't have to do anything yourself – the process is fully automated. You can access all measurement data in the cloud via smartphone, tablet or PC. All you need is a valid license and to set up the system once: configure the online data loggers and set limit alarms. The rest takes care of itself.

- ✓ **Central control for monitoring and managing all measuring points**
- ✓ **Automatic transmission and documentation of readings, alarms when limit values are exceeded**
- ✓ **All readings can be accessed anytime and anywhere**
- ✓ **Link to the testo Smart App for further smart benefits**

The payable Testo Data Monitoring Licence is required to use the system.

Be sure. **testo**

## testo Saveris Cloud

## Intelligently networked. 100% control.

The new testo 160, 162 and 164 online data loggers for intelligent climate monitoring: Monitoring, alerting and documentation – anytime and anywhere.

## testo 160

### Automated monitoring of temperature, humidity, lux and UV

- Discreet design
- Cost-effective online data logger
- Lux and UV measurement with external sensors

testo 160 T

## 100% control.

### Virtually 0% effort.

With the new online data logger system, you can always keep an eye on your indoor climate - completely automatically. When the online data loggers testo 160, testo 162 and testo 164 are connected to the testo Saveris Cloud and the testo Smart App, monitoring, alarm notifications and documentation run in the background. This eliminates manual processes and makes compliance with regulatory quality assurance requirements incredibly easy.

**Reliable measurement and data storage, permanent alarm notification by push/email**

**Connection of all online data loggers to the testo Saveris Cloud**

**Link to the testo Smart App for easy commissioning**

**The right data logger for every application**

**Download the testo Smart App now and use all the benefits!**

The testo Smart App.

## testo 162

### Automated monitoring of temperature, humidity, pressure and CO<sub>2</sub>

- Connection option for external probes
- Display to check readings
- HACCP certification

## testo 164

### Automated monitoring of temperature and humidity

- Independent of WiFi infrastructure
- Mini online data logger with discreet design
- 8-year battery life
- Easy pairing of logger and gateway (one push of a button)
- HACCP & NSF certification
